Sanford Children's Diabetes Day Camp

For children 5-8 years of age

The day camp will be held on August 7, 2009 at the Sanford Wellness Center. It is for children that have been diagnosed with diabetes. This camp is to introduce the younger children to a diabetes camp environment. It is a great way for children with diabetes to meet and interact with other kids who have diabetes.

The camp will be a fun filled day for the children in a safe environment.

There will be a variety of fun activities, including swimming in the Wellness Center, various team games and education sessions along with some play time at the park. Our clinic's diabetes team and Medical staff will be available through out the entire day. Snacks and a lunch will be provided through the Wellness Center. Our dietitian staff will assist in carbohydrate counting. The medical staff will assist in blood sugar testing, insulin administration and other aspects of daily diabetes management. If you are interested in registering your child, please return this pre-registration form by **Friday, June 19, 2009** to the attention of Karen Sanders.
