Sanford Orthopedic Physical Therapy Residency Program - Fargo

Mission

The mission of the Sanford Orthopedic Physical Therapy Residency Program - Fargo is to prepare physical therapists who use best available evidence, and demonstrate and practice advanced clinical skills in the area of orthopedic physical therapy to optimally facilitate the health and healing of the patients we serve.

Vision

The Sanford Orthopedic Physical Therapy Residency Program - Fargo will be an American Physical Therapy Association (APTA) accredited program regionally and nationally recognized for providing exceptional orthopedic physical therapy and education.

Program Goals

1. Train licensed physical therapists to become specialists in the area of orthopedic physical therapy
2. Provide the best possible evidence based physical therapy services to the patients we serve taking into account the importance of clinical experience and patient values
3. Facilitate optimal clinical outcomes to physical therapy interventions
4. Contribute to the body of knowledge in the area of orthopedic physical therapy
5. Uphold the ethical standards and demonstrate professionalism as outlined in the *APTA's Code of Ethics for the Physical Therapist*

Outcomes

1. Enrolled residents who have successfully met all residency requirements: 100%
2. Pass rate for residents who have taken the orthopedic certification exam: 100%

General Information

Credentialing: Sanford Orthopedic Physical Therapy Residency Program-Fargo is an APTA credentialed orthopedic residency program.

Credentialing Conferred: Upon successful completion, the resident will receive a certificate of completion of post professional residency in orthopedic physical therapy.

Length of Study: 12 months

Entrance Date: August 5, 2024

Tuition: none

Salary: Resident will be a paid employee of Sanford Health. Pay will reflect time spent with mentors, for didactic course work, research, presentations, projects, and mentoring time.

Benefits: Residents will receive full time benefits through Sanford Health including but not limited to: health and dental insurance, short/long term disability, paid time off, life insurance, and employee retirement plan.

Location: Sanford Clinic Southpointe Physical Therapy
2400 32nd Ave. S., Fargo, ND

Overview: This program will provide residents with accelerated study in the area of orthopedic physical therapy to prepare for advanced clinical practice and successful completion of the American Board of Physical Therapy Specialties Orthopedic Specialist Certification Exam. The program includes one on one clinical mentoring, didactic education, as well as preparation to participate in research and presentations. Sanford Orthopedic Physical Therapy Residency Program-Fargo partners with the University of North Dakota Department of Physical Therapy for portions of the didactic educational experience.
