Dear Community Members,

Sanford Luverne has conducted a community health needs assessment (CHNA) and formally identified unmet needs in the community. A component of the 2013 CHNA work is a perception survey.

During FY 2012/2013 members of the community were asked to complete a survey to help Sanford identify unmet health needs. Sanford analyzed the survey data, identified unmet needs, and partnered with key community stakeholders to develop a list of resources and assets that were available to address them. A gap analysis was also conducted to identify the most significant health needs, and they were addressed in the implementation strategy that is included in this document.

Sanford Luverne has set strategy to address the following community health needs:

- After-hours access/walk-in clinic
- Increase knowledge and awareness of services available within the community

Sanford is also addressing mental health services and obesity through enterprise-wide implementation strategies. The enterprise strategies are included in this for your review.

Additionally, the asset map/resource list is included in this document along with the action steps that will be taken.

At Sanford Luverne, patient care extends beyond our bricks and mortar. As a not-for-profit organization, ensuring that the benefits of health care reach the broad needs of communities is at the core of who we are. By working with communities, we can bring health and healing to the people who live and work across our region. Together, we can fulfill this mission.

Sincerely,

Tammy Loosbrock
CEO
Addressing the Needs in Luverne

ACCESS

Community resources addressing the need:
- Same Day at Sanford campaign launched for same day appointments.
- Cardiology services offered 3 times/month at clinic.
- Dermatology available in Sioux Falls.

Sanford’s commitment to addressing the need:
- Sanford Luverne has chosen after-hours access as a priority and has developed an implementation strategy to address the need.

CANCER

Community resources addressing the need:
- Sanford Cancer Biology Research Center
- Edith Sanford Breast Cancer Institute

Sanford’s commitment to addressing the need:
- Sanford has dedicated resources and recruited experts in the field of oncology to address cancer research.

CHRONIC CONDITIONS

Community resources addressing the need:
- Sanford Medical Home
- Sanford Dietitians
- TB: Sanford Luverne Infection Control and Public Health
- Obesity: SHIP Grant to reduce obesity in community
- Substance: CHIP, Community Health, smoking cessation

Sanford’s commitment to addressing the need:
- Sanford has executed new programs to improve care coordination, including the Health Coach and Medical Home program for the purpose of impacting chronic disease. Sanford is committed
to finding a cure for Type I Diabetes. Better Choices/Better Health is a program that addresses chronic disease self-management and is available free of charge to all patients with a chronic disease and is available on-line at https://selfmanage.org/sanford/

- Additionally, obesity is a co-morbidity of many chronic diseases and is a priority for Sanford Enterprise. The enterprise implementation strategy will address obesity.

COMPETITION
