Sanford Health Network
Community Health Needs Assessment
Implementation Strategies
2014-2016
Dear Community Members,

Sanford Sheldon has conducted a community health needs assessment (CHNA) and formally identified unmet needs in the community. A component of the 2013 CHNA work is a perception survey.

During FY 2012/2013 members of the community were asked to complete a survey to help Sanford identify unmet health needs. Sanford analyzed the survey data, identified unmet needs, and partnered with key community stakeholders to develop a list of resources and assets that were available to address them. A gap analysis was also conducted to identify the most significant health needs, and they were addressed in the implementation strategy that is included in this document.

Sanford Sheldon has set strategy to address the following community health needs:
- Access
- Physician Recruitment
- Preventive Services

Sanford is also addressing mental health services and obesity through enterprise-wide implementation strategies. The enterprise strategies are included in this for your review.

Additionally, the asset map/resource list is included in this document along with the action steps that will be taken.

At Sanford Sheldon, patient care extends beyond our bricks and mortar. As a not-for-profit organization, ensuring that the benefits of health care reach the broad needs of communities is at the core of who we are. By working with communities, we can bring health and healing to the people who live and work across our region. Together, we can fulfill this mission.

Sincerely,

Rick Nordahl
CEO
Addressing the Needs in Sheldon

ACCESS

Community resources addressing the need:
- Two physician slots are currently being recruited for in Sheldon. Also the emergency department is being staffed separately (Saturday 9 – 12 and Monday evening 6 – 9). The medical clinic is currently open and we added a provider to Monday evening.
- Two physician positions are being filled
- Same Day at Sanford for immediate access
- Oncology, pulmonology and additional neurology are on the requested list of specialties

Sanford’s commitment to addressing the need:
- Sanford is addressing this need with an active recruiting plan and has recently implemented Same Day at Sanford for immediate access.

CANCER

Community resources addressing the need:
- Sanford Cancer Biology Research Center
- Sanford chemotherapy services
- Sanford consulting oncologist visits twice monthly
- Radiation therapy is available in Worthington, Spencer, Sioux Falls and Sioux City
- Sanford oncology services are available in Worthington, Sioux Falls, Spencer and Sioux city

Sanford’s commitment to addressing the need:
- Sanford is addressing this need by dedicating resources and recruiting experts in the field of oncology to address cancer research. Some chemotherapy is done locally.

CARDIAC

Community resources addressing the need:
- A cardiologist visits twice per month.

Sanford’s commitment to addressing the need:
- Sanford is addressing this need by providing cardiology services through outreach twice per month. Additional services are available in Sioux Falls.
CITY AND COUNTY SERVICES/CITY GOVERNMENT/CITY INFRASTRUCTURE

Community resources addressing the need:

- Sanford’s commitment to addressing the need:
  - Sanford will address this need by sharing the survey results with community leaders.

DIABETES
