

Sanford South University Hospital Fargo – Acute Rehabilitation 5C

Serving the region since 1984.

CARF Accredited – Aspiring to Excellence in Rehabilitation since 1991.

Patient Outcomes FY 2022 – General Rehab Program – “Believe You Can Achieve”

As a person interested in the rehabilitation unit, you have the right to know about us. We recognize you have a choice in health care services and we want to thank you for considering/choosing Sanford Health.

We served people 14 years and older this past year tallying 390 patients. 158 patients were in our General Rehab Program. We served 1 adolescents < 18 years.

Patients participate in at least 3 hours of therapy per day, 5 of 7 days a week, while also having their medical needs met. Total therapy time is 15 hours per week. Length of stay can be influenced by various factors such as severity of injury, medical status, progression with therapy, etc.
