

# DirectACCESS laboratory testing

Convenient tests. Accurate results.  
Freedom to monitor your health.

Sanford Jackson Medical Center offers DirectACCESS Laboratory Testing, giving you the freedom to order several lab tests quickly, conveniently and confidentially without visiting the doctor. All the testing is done in our accredited laboratory and performed by the professional staff of Sanford Jackson Medical Center and Sanford Lakefield Clinic.

DirectACCESS was developed to help you monitor certain ongoing health risks or to assess the potential for health risks. The tests are a helpful tool but should not be used as a substitute to visiting your doctor on a regular basis.
