How Does That Make You Feel?

Understanding and learning how to manage feelings is important for young children to learn. Caregivers play a powerful role in helping young children understand their feelings in order to identify what they are experiencing. Once a child is able to identify his feelings, it is important to support the child's emotional development by helping him express his feelings in productive ways. One way of doing that is to let the child know what his body language is telling others. Conversation starters can help a child become aware of his body language.

- A general comment could be, "It seems like something is bothering you, what does it feel like to you?"
- To the hesitant child one might say, "Does this seem scary to you? Are you feeling shy?"
- To the enthusiastic child try a comment such as, "It seems like you really like what you are doing; are you happy?"

Books are a useful tool to talk about feelings with children. Some suggestions to help children better describe what is going on inside are:

- "The Way I Feel" by Janan Cain
- "What Are You So Grumpy About?" by Tom Lichtenheld

Caregivers can help young children learn new skills in expressing their feelings. Helping a child use her words gives her a good way to work through her feelings. Moreover, recalling a loving moment is one of the fastest ways to regain self-control after a stressful event. Teaching children to take deep breaths, and then think about how good it feels to be with someone they love can help them gain control of themselves. Very young children may need help in learning how to take deep breaths. Help children develop the skill of "blowing" deep breaths with party-blowers (the birthday toy that uncoils as you blow in it). Another suggestion is to read the child a book that helps her recall what makes her feel loved, such as "How Many Kisses Do You Want Tonight?"

Important Note: CHILD Services has a new phone number (605) 226-5675
Our toll-free number is the same (800) 982-6404

A Friendly Reminder Regarding Online Orientation:

Are you planning to access the South Dakota Orientation to Child Care on-demand training series through the D2L learning platform at <http://www.sdstate.edu/teaching-learning-and-leadership/family-resource-network/south-dakota-orientation-training-demand>? Please remember this important step: WRITE DOWN THE TEMPORARY PASSWORD (it is case sensitive).

This password will not be emailed to you, so you need to write it down exactly as shown. If you miss this step, you will not be able to access your account.

If you experience an error, try again. Remember that the password is case sensitive. If you try unsuccessfully 3 times, you may be locked out of your account. If this happens, wait 30 minutes, and try again.
