PLAY IS IMPORTANT TO
HEALTHY BRAIN DEVELOPMENT

CHILDREN LEARN AND GROW THROUGH PLAY

Sanford Children's CHILD Services Toy Lending Library provides quality toys to enhance children's learning and development through play.

Play allows children to use their creativity while developing their imagination, social manners, physical skills, coordination and thought processes. Play is important to healthy brain development. Sanford's Toy Lending Library promotes children's learning in their various areas of development.

PHYSICAL DEVELOPMENT

Physical development provides children the opportunity to explore and interact with the world around them. Abilities in this area include fine motor development (hand and finger dexterity) and gross motor development (larger movements). Check out toys that make children move their hand and finger muscles.

DRAMATIC PLAY

Dramatic play encourages emotional development, language, and communication skills. Providing toys that are open ended help stimulate young imaginations and provide choices for discovery and invention. Check out toys that promote children playing together.

SCIENCE

Science inspires the process of learning to think and reason. Children can focus, explore, reflect and apply new concepts. Check out toys for the young scientist.

MATH

Mathematics in early childhood helps children develop critical thinking and reasoning skills. Children learn counting, sorting, and color and shape recognition. Check out toys that have colors and numbers.

LANGUAGE

Language encourages children to express ideas, observations and feelings. Children learn communication, reading, and letter and number recognition. Check out toys that require letter recognition.

GET TIPS ON ENCOURAGING CHILDREN'S DEVELOPMENT THROUGH PLAY

- Receive advice on age-appropriate toys to encourage exploration and curiosity development.
- Get ideas on how to use a toy in a variety of ways to encourage multiple skill developments.
- Discover how to use a toy for group activities to encourage social development.

For more information, call (605) 312-8370 or email childsrv@sanfordhealth.org.
